About Me

A passionate full stack web developer with more than 2 years of expertise in HTML, CSS, JavaScript, and frameworks like React and Next.js. With a strong foundation in backend technologies such as Express, Node.js and MongoDB, I build user-friendly, responsive web applications. A creative problem-solver, I constantly seek to expand my skills and deliver excellence.

Education

Self-Taught Backend Developer

Aug 2024- Oct 2024

- Gained expertise in Node.js, Express.js, and MongoDB.
- Efficiently design and manage RESTful APIs and databases.
- Mastered in handling server-side logic and authentication.
- Mastered debugging and performance optimization.
- Built scalable backend systems for modern applications.

Certified Frontend Developer

Central Institute Of Technology

May 2023- Oct 2024

- Gained expertise in HTML, CSS, JavaScript, React and Next.js.
- Mastered tools like Tailwind CSS and Bootstrap.
- Improved problem-solving and debugging skills.
- Developed creative, user-friendly web designs.
- Built responsive, modern websites.

Bachelor of Arts (English Honours)

Asutosh College

June 2016 - June 2019

Pursuing English Honours deepened my appreciation for literature and language, enhancing my ability to understand diverse cultures and perspectives. It cultivated critical thinking and empathy, enabling me to connect with the world meaningfully and thoughtfully.

Experience

Freelance Website Developer

August 2024- Present

Created complete website alone for a property broker's company and a home-shifting company. Moreover, created landing pages for 3 YouTubers to sell their courses.

Project- Full Stack Ecommerce Website With Next Js, MongoDB, TypeScript

(A complete full stack ecommerce website that has all functionalities like, login, admin login, add new products, add to cart page, add to wishlist page , purchase items and razorpay payment gateway).

Shopify Website Builder and Content Writer

Care N Class

Oct 2023-May 2024

Built their Shopify site with their team of website builders. Learned a lot about the CMS and created responsive design for their website with using the tool Metafields guru.

Content Writer / WordPress Website Builder

Academia Assist

Dec 2022 - Mar 2023

Here I joined as a content writer but also collaborated as an important member to builder their WordPress site that handles thousands of traffic everyday without any technical glitches

Full Time Content Writer

Elphill Technology

Oct 2021-June 2022

Started my career as a content writer where I learned about SEO and other search engine related technology and hacks. The job helped me a lot to understand about the web and how things rank on the internet.
